

Puma Cup – 2019 Regulations

The **Puma Cup** series is for the Ford Puma 1.7 saloon coupe from 1999 to 2001 as supplied through the Ford dealer network.

- 40 minute races with a mandatory pit stop and 30 minute qualifying session on the same day.
- A popular, well proven series with good grids providing plenty of close clean competition within each race.
- Simple eligibility rules – Tyres, induction type, silhouette and standard original engine type.
- Great value racing – it is a requirement to be a race member of the CSCC (£39 for 12 months).
- Entries may be for single drivers or two drivers sharing a single race car.
- A mandatory pit stop is required during a CSCC endurance race, full pit stop regulations are available on the CSCC website.
- Sprint Race. A sprint race may also be in the race calendar and run under a different race club. Details will be advised to all competitors.
- **Class structure.** Class PC.
Only the standard Ford Puma with a standard 1.7 litre engine.

Bodywork

The original silhouette is to be retained from all angles. Non production and limited production splitters, dive planes and wings are not allowed.

Engine and Transmission

Original production 1.7 engine is to be retained but may be blue printed without any other modification. The gearbox may be from 1.4, 1.6 or 1.7 litre production Ford Puma.

Tyres

Cars will run the control tyre – Dunlop Direzza size 195/50/15 DZ03G on a standard production sized wheel.

Suspension

Option from Standard. GAZ suspension as manufactured for the Puma Cup.

Roll Cage

Roll cage is free but must conform to MSA regulations.

Brakes

Friction material free on standard production discs and drums.

Clutch

Material free

Air filter

Air filter is free.

Minimum all up weight including driver – 1020kgs
